Operating Plan - Executive Summary

The Yellowknife Education District No. 1's Operating Plan for the 2021-2022 school year was prepared in compliance with the *Financial Administration Act* (FAA) that requires Northwest Territories (NWT) Education Bodies to plan for their operations, compliance to educational directives, and implementation of activities and initiatives in line with the Government of the NWT (GNWT) Mandate and the Minister of Education's direction.

The Operating Plan outline consists of several sections corresponding to various accountability areas, all of which have been completed in accordance with the Yellowknife Education District No. 1's priorities for the upcoming school year.

The following table summarizes the planned goals and targets for the upcoming school year:

Yellowknife Education District No. 1 (YK1) has placed educational priorities and goals for 2021-2022 under three pillars that incorporate priorities agreed to by Education Leaders and the Department of ECE: **Student achievement in Literacy and Numeracy; Language and Culture, Student & Educator Wellness; Personalized and Inclusive Education; and Key Competencies.**

YK1 strategic priorities are also included in our planned goals and targets. They are as follows: **Learning:** Ensure inclusive, equitable and authentic learning experiences; **Indigenous Language & Education:** Honour and celebrate Indigenous Language and Culture for all learners; **Community:** Foster critical understanding of local, national and global issues; and **Wellness:** Cultivate a culture of holistic wellness.

The three pillars that align the aforementioned are:

1. **Learning**
2. **Indigenous Language and Culture**
3. **Wellness, Community, and Key Competencies**

The following chart highlights planned goals and foci for 2021-2022. All professional development will align with the identified pillars.

Annual Report - Executive Summary

The Yellowknife Education District No. 1's Annual Report for the 2021-2022 school year was prepared in compliance with the *Financial Administration Act* that requires Northwest Territories (NWT) Education Bodies to report on their operations, compliance to educational directives, and implementation of activities and initiatives in line with the Government of the NWT (GNWT) Mandate and the Minister of Education's direction.

The following table summarizes the successes and areas for improvement for the school year:

1. Administration and School Services

Administration and Schools Services reflects the overall operations of Education Bodies and Schools, including high level overviews of the Education Body's:

- A. Governance structure;
- B. Functional Organizational Chart;
- C. Governance Training Plan;
- D. Meeting Schedule;
- E. School Profiles;
- F. Student Profiles; and
- G. Teacher Profiles.

A. Governance of Education Bodies

The following table details key aspects of the Education Body governance structure and processes at the regional level, such as elections membership terms, current membership:

YK1 was established in 1939. Seven publicly elected officials serve as YK1 Trustees. The District Education Authority (DEA) plays a key role in the continued success of the District and the 2207 (April 2021) students it serves.

Accountability, strategic thinking, financial responsibility, and commitment are among the strengths of this dedicated group.

District Education Authority Trustees

*as elected in the fall of 2018 for a term of three years, to be followed by one year and four year terms. Confirmed 4 years to align with the city of Yellowknife elections.

Chairperson:	Tina Drew
Vice Chairperson:	Satish Garikaparathi

Trustees:	Terry Brookes
	Jay Butler
	Rajiv Rawat
	Al McDonald
	John Stephenson

Administration

Superintendent of Education:	Cindi Vaselenak
Assistant Superintendent:	Shirley Zouboules
Director of Corporate Services:	Tram Do

During their time 'in office', Trustees attend monthly DEA meetings and participate in regularly scheduled DEA-level committee meetings. In addition, Trustees make every effort to increase their awareness and understanding of community concerns and school-based issues by attending monthly Parent Advisory Committee meetings, public gatherings and community events. YK1 Trustees after an upcoming one-year term, will be elected every four years. There are no options to renew unless they are re-elected.

Yellowknife Education District No. 1 Trustees play a vital role in the continued success of the District. These individuals lead with diligence and sound judgment, always with the best interests of students at heart. YK1 policy-makers guide the next generation into the future and do their part to contribute to a strong community and a well-functioning society.

F. Student Profiles

The following table details general characteristics of the region's student population, including a description of student body ethnic backgrounds, description of regional/community culture, educational programming in terms of inclusion and student supports (*% of students on a Regular Education Program (REP) with a Student Support Plan (SSP) for Accommodations, % of students on a Modified Education Program (MEP) with an SSP for Modifications, and % of students on an Individualized Education Program (IEP)*), and other noteworthy demographics. **Please include any anticipated changes in student enrolment as a result of COVID-19 pandemic, including any changes in the number of students being homeschooled.**

The YK1 student population reflects the demographics of the City of Yellowknife. 39% of our student body is Indigenous, with a considerable variation in numbers of Indigenous students between schools. A growing number of students enrolled in our schools are new to Canada. These students' needs are supported, through the Support Workers In Schools (SWIS) program primarily in two schools. In addition, there are a number of students who are English Language Learners (ELL), but do not receive services from the SWIS program.

In 2020-2021, 70% of YK1 students were on a regular program, while 25% were on SSPs of which 3.57% were on Modified Plans. There were a remaining 2% of students on IEPs. Numbers for 2021-2022 are not yet known but percentages are likely to be similar.

G. Teacher Profiles

The following table details the characteristics of the teacher population, including average length of employment within the region, number of first year teachers expected, average number of teachers with full experience, number of teachers from the region or the NWT, and awareness of upcoming issues with teacher recruitment and retention. **Please include any specific information related to the COVID-19 pandemic.**

YK1 has teachers with a wide range of experience, from 0 to 32 years. Approximately, 29% of our teachers have less than 5 years teaching experience with YK1. The largest percentage, 49%, of our teaching staff have between 5 and 15 years of experience. The remaining 22% of teachers have greater than 15 years experience.

YK1 has limited challenges with teacher turnover in comparison to smaller NWT communities. Ongoing, areas where we experience the most challenges are in French Programming, Indigenous Language Instruction, and Administration. The high demand for French teachers across Canada makes it very difficult to attract and retain qualified French teachers due to the isolation and high cost of living. As well, it is very difficult to offer Indigenous Language programs due to extremely low numbers of qualified local Indigenous Language speakers. Staff interest in applying on and remaining in administrative roles diminishes more each year due to the perceived high expectations and overwhelming demands of the job.

YK1 is currently focusing on self-isolation planning for new hires from out of the territory to for the 2021-2022 school year.

2. Territorial Schools

Territorial Schools reflects the programs and professional development activities that directly support excellence in teaching and student academic achievement specific to the NWT Education Act, Ministerial Directives, or School Funding Framework including:

- A. Education Body Strategic Planning;
- B. School Improvement Planning;
- C. Annual School Reviews;
- D. Staff Evaluations;
- E. Regional Training and In-Service;
- F. Literacy Coordinators;
- G. Healthy Food for Learning;
- H. Student Success Initiative;
- I. Safe School Plans;
- J. Healthy Relationship Programming;
- K. Second Language Education; and,
- L. Northern Distance Learning

A. Education Body Strategic Planning

NWT Education Bodies develop regional priorities and goals based on the needs of their students and schools. The priorities and goals developed for the upcoming school year should align with the following five shared priorities agreed to by Education Leaders and the Department of ECE:

1. Student achievement in Literacy and Numeracy
2. Language and Culture
3. Student & Educator Wellness
4. Personalized and Inclusive Education
5. Key Competencies

The following tables detail regional priorities, goals, and connections to the shared priorities, including regional performance indicators and targets set for the upcoming school year related to Education Body strategic planning, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

<p>Regional priorities and goals, including any specific information related to the COVID-19 pandemic.</p>	<p>YK1 targets and performance indicators fall under the following pillars that reflect Education Leaders and ECE Priorities, and YK1 Strategic Priorities:</p> <ol style="list-style-type: none"> 1. B. School Improvement Planning

As per the *NWT School Improvement and Reporting Directive*, school improvement planning responds to student and community needs, addresses policy requirements, accommodates departmental directives, and engages all school staff. The School Improvement Plan is a public document that provides a direction-setting, strategic overview for the school. School plans are expected to be succinct but must include clear objectives, priorities, measurable improvement objectives, major strategies (particularly whole-school strategies), reference to systemic policies and directions, evaluation measures and a timeframe, including a provision for annual review.

The following tables detail regional priorities and goals, including regional performance indicators and targets set for the upcoming school year related to School Improvement Planning, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

C. Annual School Reviews

As per the *NWT School Improvement and Reporting Directive*, Annual School Reviews should focus on standards of learning outcomes - academic and non-academic - and require schools to present the analysis and evaluations of learning outcomes to their Superintendent of Education.

The following tables detail the region’s approach to the completion of Annual School Reviews, including regional performance indicators and targets set for the upcoming school year related to Annual School Reviews, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

For the 2021-22 school year each region is able to determine how best proceed with annual school reviews.

They identify goals, set targets and performance indicators, and ensure alignment with YK1 identified pillars. School plans are shared with the District Administration and the Board of Trustees. At the end of the year, there will be another presentation to share and discuss the results, which inform the subsequent year’s plan. The format for school presentations to Trustees will depend on COVID-19 restrictions.</p>

D. Staff Evaluations

All education staff is required to undergo evaluations as per Ministerial directives, including the *Promotion of Professional Growth For Teachers in Northwest Territories Schools (2004)* and *Direction on Principal Growth and Evaluation in the Northwest Territories (2012)*.

The following tables detail the region’s approach to completing staff evaluations, including regional performance indicators and targets set for the upcoming school year related to staff evaluations, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

<p>Regional approach to the completion of Staff Evaluations, including any specific information related to the COVID-19 pandemic.</p>	<p>At the beginning of each school year, YK1 Human Resources identifies all staff requiring evaluation. In addition, throughout the year, any staff identified by school administration will also be evaluated. The administration of each school is then responsible for timely and appropriate evaluations. Priority for evaluation is given to all term teachers and indeterminate teachers identified as being at risk.</p>

E. Regional Training and In-Service

Education Bodies are responsible for training and in-service activities for staff at the regional and school level, which can occur throughout the year, and may include 2.5 administrative days per year and time allotted for the Strengthening Teachers’ Instructional Practices (STIP). (This does not include any professional development activities related to Article 16 of the Collective Agreement.)

The following tables detail the region’s training and in-service plan, the relevance of the plan to regional and shared priorities, and include regional performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

F. Literacy Coordinators

Literacy coordinators collaborate with teachers to develop effective instructional approaches in literacy and/or numeracy throughout all grades and subjects. They provide professional development for teachers and model effective routines, practices, and protocols, while developing a regional literacy action plan and supporting school administrators and teacher to develop and use instructional practices, resources, and assessments associated with the plan.

The following table details the total number of allocated, budgeted and actual Literacy Coordinators in place to provide administrative and programming leadership at the regional level, and the explanation for any variance between each.

G. Healthy Food for Learning

The Healthy Foods for Learning Program is supported by the Anti-Poverty Strategic Framework and aims to increase the capacity of schools to provide healthy meals and/or snacks to students.

The following tables detail the programs relevance to regional priorities and strategies including regional and school-based performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

Regional Targets	
Relevance of the Healthy Foods for Learning program to regional priorities, including any specific information related to the COVID-19 pandemic.	<p>YK1 schools access the Healthy Food for Learning Program for the provision of snacks and/or lunches using a philosophy of access for all. Schools employ an “open cupboard” approach that allows students to get snacks and lunches, as they need them. This aligns with YK1 Strategic Priorities that focus on learning and wellness. Research shows that students perform better in all areas when their diet consists of nutritional food. (https://www.ece.gov.nt.ca/en/services/education-renewal/healthy-foods-learning).</p> <p>Our experience is that many students in our YK1 community, some of whom cannot be readily identified, do not have access to healthy food in their homes. This program helps ensure that access.</p>

H. Student Success Initiative

The Student Success Initiative (SSI) aims to improve student learning and outcomes. SSI proposals are provided to the Department and the Northwest Territories Teachers’ Association (NWTTA) for approvals in May of the previous school year (as per the SSI Handbook).

The following tables detail the SSI Project proposal summary including regional performance indicators and targets, along with the achieved results, the explanation for any difference between targets and results, a summary of implementation, noted areas of strength and areas for development. Under the proposal summary, indicate whether this is a continuation of previous year’s SSI project.

The focus will be on inclusive practices and includes ways to support teachers in bringing Indigenous content, perspectives, and pedagogies into their classrooms. • Supporting our early childhood educators to focus on pedagogy around Playful Inquiry. A district professional learning community will meet multiple times over the year. <p>This SSI initiative will begin a new cycle of PD for YK1. We are taking a responsive approach to learning by including ongoing professional development that supports teachers in various stages of their practice. Schools will have the opportunity to co-plan and coordinate the PD with our outside professional facilitators. I. Safe School Plans

Safe Schools Regulations require Education Bodies to complete a Safe Schools Plan that includes bullying prevention, intervention and education strategies that integrate evidence-based healthy relationships programming into the school curriculum and daily classroom activities. Safe School Plans are submitted annually to the department to ensure that Safe Schools Regulations are in place across the territory. Plans are reviewed and regions are provided with feedback every three years.

The current cycle is:

2021-2022	2022-2023	2023-2024
CSFTNO DDEC SDEC	TCSA YK1 YCS DDEA NDEA	BDEC SSDEC

J. Healthy Relationship Programming

Safe Schools Regulations require Education Bodies to include education strategies that integrate evidence-based healthy relationships programming into the school curriculum and daily classroom activities. This refers to programming that is offered to all students, rather than targeted programs for individual students.

Regions/Schools may offer evidence-based healthy relationships programs of their choice; however, ECE endorses the following evidence-based programs:

- Grades JK-3: *WITS* (Walk Away, Ignore, Talk it Out, & Seek Help);
- Grades 4-6: *LEADS* (Look & Listen, Explore Points of View, Act, Did it Work?, Seek Help);
- Grades 7-9: *The Fourth R - Health Physical Education (HPE) Program*; and
- Grades 10-12: *The Fourth R - Healthy Relationships Plus Program (HRPP)*.

The following tables detail the region’s approach to for the integration of evidence-based healthy relationship programming including regional performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

3. Inclusive Schooling

The *Ministerial Directive on Inclusive Schooling* (2016) is supported annually by conditional funding that is allocated to Education Bodies for programs, processes, and personnel that meet expectations and standards identified in the *Guidelines for Inclusive Schooling* (2016), to effectively support classroom teachers and improve student success. Inclusive Schooling funding allows education bodies to provide support systems and services to enable all students to be included as full participants in regular, age-appropriate classes within their home communities.

A. Regional Inclusive Schooling Coordinators

Regional Inclusive Schooling Coordinators (RISCs) provide administrative and programming leadership at the regional level to Inclusive Schooling based staff and to the overall school team and environment to support classroom teachers in meeting the needs of students.

The following table details the total number of allocated, budgeted and actual RISCs in place to provide administrative and programming leadership at the regional level, and the explanation for any variance between each.

B. Program Support Teachers

Program Support Teachers (PSTs) provide direct collaborative support to classroom teachers as they develop instructional strategies to meet the needs of students.

The following table details the number of allocated, budgeted and actual PSTs in place to provide direct collaborative support to schools, and the explanation for any variance between each.

If PST duties have been split between more than one staff member, please provide details (how is the position split, and the reason for doing so).

H. Alignment of Student Supports

In order to support all students within the Common Learning Environment as per 9.1c in the *Ministerial Directive on Inclusive Schooling (2016)*, it is critical that student supports are aligned. Student Support Plans (SSPs) and Individual Education Plans (IEPs) can be reviewed and changed at any time, but must be reviewed at least once every reporting period (3-4 times per year).

The following tables detail the region’s approach to ensure that student supports aligned to the goals stated in their SSPs and/or IEPs, including regional performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any variance between targets and results, noted areas of strength and areas for development.

I. Flexible Instructional Strategies

Instructional strategies are techniques that teachers use to help students become independent, strategic learners. Principals are required to support teachers and support assistants in the use of flexible instructional strategies, such as scheduling allocation of resources, or leading staff development.

The following table details the region’s approach to ensure that principals create conditions to support teachers in the use of flexible instructional strategies, and includes regional performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any variance between targets and results, noted areas of strength and areas for development.

J. School-based Support Team

The School-based Support Team (SBST) operates under the leadership of the principal to assist classroom teachers with developing and implementing instructional and/or management strategies, SSPs or IEPs, and to coordinate support resources for students. The team also develops strategies to support classroom teachers in meeting students’ needs and to reduce barriers to students’ success in learning; solve specific problems; address systemic issues as well as those that are teacher or student specific; and maintain documentation, as per the reporting requirements. SBSTs are encouraged to meet regularly (typically weekly), and to keep written records of their meetings.

The following tables detail the region’s approach to ensure that the SBST, under the leadership of the principal with co-leadership by PST(s), is involved to support teachers to meet the needs of all of their students. It includes regional performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any variance between targets and results, noted areas of strength and areas for development.

K. Review of SSPs and IEPs

SSPs and IEPs should be discussed with parents and guardians. However, as per the NWT *Education Act*, IEPs additionally require the explicit consent of the student’s parent or guardian, typically recognized by a signature on the IEP.

The following tables detail the region’s approach to ensure that IEPs and SSPs are updated and reviewed in consultation with parents, students, SBST members, education body staff, and other professionals as required, and includes regional performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any variance between targets and results, noted areas of strength and areas for development.

L. PST Activities

In carrying out their role, the PST will focus on activities and functions that directly support classroom teachers to meet the needs of their students. The Inclusive Schooling Directive provides guidance for this by setting out PST priority time-use targets:

- a minimum of 60% of the PST’s time should be devoted to **teacher support activities**
- no more than 25% of the PST’s time should be spend working **directly with students** (commonly Tier 3 students –those with more complex needs)
- maximum of 15% of the time used for **other** functions

The following table details the region’s approach to ensure that PSTs align their time use, to the best of their ability, to the PST Priority Time-Use targets, and includes regional performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any variance between targets and results, noted areas of strength and areas for development.

The plans will include YK1 and ECE initiatives and directive deadlines, as well as ensuring that time targets are met. A beginning of the school year PD refresher will be held for Admin and PSTs on allocation of PST time targets. All meetings will comply with COVID-19 restrictions.</p>

4. Indigenous Languages and Education

As set out in the Education Act, the NWT education system recognizes the relationship between languages, culture and learning, and that school programs must be based on the cultures of the NWT. The 2018 *NWT JK-12 Indigenous Languages and Education (ILE) Policy* highlights the ongoing commitment of ECE and Education Bodies in welcoming all students within learning environments that centre, respect, and promote Indigenous worldviews, cultures and languages of the community in which the school is located. The ILE Policy is supported annually by conditional funding that is allocated to Education Bodies to provide Indigenous language education and enhance cultural teaching and learning within NWT schools.

A. Regional Indigenous Language and Education Coordinators

The Regional Indigenous Language and Education (RILE) Coordinator provides a centralized leadership role in coordinating Indigenous language instruction and Indigenous education programs and activities in the region.

The following table details the total number of allocated, budgeted and actual RILE Coordinators in place to provide leadership at the regional level, and the explanation for any difference between each.

B. Indigenous Language and Education Teams

NWT schools are expected to create an ILE team to set personalized school goals identified in a School Based ILE Plan. The goals created in a school’s ILE Plan should be focused on the 9 action areas outlined in the ILE Handbook. Each year, schools are asked to revisit their ILE plans and revise as needed to ensure growth of Indigenous language and education in their schools.

The following table details the composition of ILE teams and their planned meeting frequency including an explanation of the was not in place or active during the year.

C. Indigenous Language Instructors

Indigenous Language Instructors (ILIs) provide Indigenous languages instruction to JK-12 students in NWT schools through the delivery of the *Our Languages* curriculum. The following table details the number of allocated, budgeted and actual ILI (PY funding) in place to provide classroom based Indigenous language instruction, and the explanation for any difference between each.

Under the current circumstances, it is not prudent to invite local language speakers and elders into the schools</p>	

D. Indigenous Education

Indigenous Education funding supports the operation and maintenance of Indigenous education programs and activities in NWT schools. All NWT schools are expected to welcome all students within learning environments that centre, respect and promote the Indigenous worldviews, cultures and languages of the community in which the school is located. This includes creating a welcoming environment, Indigenizing education, strengthening Indigenous language instruction, which includes hiring Elders and community resource people and providing appropriate teacher training to ensure the principles outlined in the ILE Policy are implemented.

The following table details the total amount of allocated, budgeted and actual funding spent on Indigenous Education to create welcoming environments and Indigenizing education in each school, and the explanation for any difference between each.

E. Building the School-Community Relationship

Building the School-Community Relationship depends on schools’ recognition that communities have many assets and much to offer the education system. Each NWT school is expected to create an ILE Committee to set school personalized goals and an ILE Plan focused on the 9 action areas outlined in the ILE Handbook. It is important for Education Body and school staff to involve parents and community in school planning and activities, and to share with them the school goals wherever possible to create a welcoming environment. This includes hiring local Elders who **regularly** engage in school programming on a day to day basis, and hosting culture-based gatherings for the community. Involvement of Elders and cultural resource staff for project specific initiatives can be accounted for by individual school in this section, Indigenous Education (O&M), or the Community Support category.

The following table details the region’s approach to ensure that schools make efforts to build the school community relationship, and includes regional and school level performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

<p>Regional approach to build the school-community relationship in all schools, including any specific information related to the COVID-19 pandemic.</p>	<p>In 2021-2022, YK1’s approach to address building the school-community relationship articulated below, continues as planned. Experiences for staff and students will be altered to meet COVID-19 pandemic restrictions.</p> <p>Building the School Community relationship is one of the most important aspects of Indigenizing education at YK1. There are a variety of strategies and activities to fulfill this goal. YK1 starts the school year with a District-wide and school level Feed the Fire Ceremonies. This is directed by the Yellowknives Dene First Nation (YKDFN). Throughout the year, each of the grades participate in a Cultural Experience camp according to the themes of <i>Dene Kede</i>. All of these camps are coordinated through B. Dene Adventures in Dettah. Each school at YK1 is allocated funding in support of the hiring of “Elders in School” so that they can have the autonomy to invite elders to be involved in such activities as feasts, assemblies, outdoor excursions, and class lessons. YK1 has a close relationship with the YKDFN in Yellowknife, Dettah and Ndilo and is continually striving to collaborate in reconciliation, language revitalization, and the celebration of traditional knowledge.</p>

F. Strengthening Training for Northern Educators

Strengthening training for Northern educators in Indigenous language and education is essential in order to provide educators with the background and context from which they can learn more about the community in which they live and work. This provides the foundation for educators to contribute to the ongoing development of positive relationships with students, parents, and the community at large.

The following tables detail the region’s approach to strengthening training for northern educators, and includes regional and school level performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

G. Fostering Student Wellbeing

Fostering Student Wellbeing requires educators to support the development of each student as an NWT **capable person** in a holistic manner. Elders in the NWT have explained that each child is born with inherent gifts. In order to nurture those gifts as a **capable person**, students must be well in body, mind, heart and spirit.

NWT schools need to cultivate healthy environments that nurture student gifts through the development of physical, intellectual, emotional and spiritual self. In collaboration, schools and communities can guide students to strengthen their wellbeing and foster development of their identity, through opportunities to connect to the land, the language and the teachings of their Elders

<p>Regional approach to fostering student wellbeing, including any specific information related to the COVID-19 pandemic. (required as of 2022)</p>	<p>YK1 is dedicated to the holistic approach to educating each child. Not only is the mind being engaged through the school day, but also the body, heart and spirit are engaged. This approach occurs through exercises such as on the land learning, collaborative learning, community relationships and the use of ceremony in the school</p> <p><i>*Fostering Wellbeing does not appear as a section in the Indigenous Languages and Education Handbook. H. Indigenizing Teaching and Learning Practices

Indigenizing Teaching and Learning Practices involves bringing Indigenous teaching and learning concepts into all aspects of education, including Indigenous worldviews and ways of knowing, doing, being, and believing. Adopting teaching and learning practices that are holistic, relational, spiral, and experiential are the initial shifts towards involves bringing Indigenous teaching and learning concepts into all aspects of education.

The following table details the region’s approach to Indigenize Teaching & Learning Practices, and includes regional and school level performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

<p>Regional approach to ensure that schools and teachers Indigenize Teaching & Learning Practices, including any specific information related to the COVID-19 pandemic.</p>	<p>Indigenizing Teaching and Learning Practices involves bringing Indigenous concepts to all aspects of education. It is necessary first and foremost to recognize the long-standing impact that Eurocentric beliefs and values have had on traditional learning practices in Northern Schools. To Indigenize education, schools must actively plan and teach using the NWT foundational curricula: <i>Dene Kede</i>. Adopting these learning and teaching practices that are holistic, relational, spiral and experiential goes hand in hand with the recognition of the importance of culture in learning and key cultural experiences. To develop the appropriate approaches and experience, YK1 teachers will participate in the cultural orientations and culture camps, work closely with Elders and Indigenous families, and work to develop a close relationship with the community. It takes time for some teachers to develop this perspective.</p>

I. Indigenizing Content for Curricula & Programming

Indigenizing education refers to adapting what is taught to where it is taught, emphasizing that education needs to consider the history, culture and place of the original peoples when delivering curricular content in the NWT. Indigenizing the content used in curricula and programming can ensure that education is more relevant and authentic for learners.

The following table details the region’s plan to Indigenize content for curricula and programming and includes regional and school level performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

J. Offering Key Cultural Experiences

Key Cultural Experiences are the backbone to education in an Indigenous context. Students learn best by doing. Key cultural experiences are authentic and relevant activities, which provide learning experiences that reflect, validate, and promote the worldviews, culture and languages of the Indigenous peoples of the NWT.

The following table details the region’s approach to offer key cultural experiences and includes regional and school level performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

K. Strengthening Core and Immersion Indigenous Language Instruction

In most NWT schools, Indigenous language programming is offered as a core language program with instructional time averaging 90 hours a year. A few schools in the NWT have implemented Indigenous language immersion programs, and others have recently begun the immersion implementation process.

The *Our Languages* curriculum (OLC) is the approved curriculum for core Indigenous language programming in the NWT. The OLC is a competency based curriculum that provides Indigenous language instructors with the curricular outcomes, instructional strategies and assessment tools to foster language growth in Indigenous language programs. Funding is provided to support Indigenous language instruction through the development and production of Indigenous language resources that support the delivery of the *Our Languages* curriculum, including training and development for Indigenous language instructors.

The following table details the region’s approach to support the delivery of the *Our Languages* curriculum and materials development, and includes regional performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

<p>Regional approach to support the delivery of Indigenous language instruction including delivery of OLC, professional development, training and plans for program sustainability, including any specific information related to the COVID-19 pandemic.</p>	<p>A vibrant Indigenous Language program not only benefits students but also serves as a gateway to a brighter future for an entire community. This highlights the critical need for effective and successful school programming where community members are intent on reclaiming the ancestral languages. Not only does instructional time play a critical role in a program’s success, so too does the number of years a student is enrolled in a second language class. For many young students, the school is often their first introduction to Indigenous language instruction.</p>

ILE Action Plan Goal for Strengthening Core and Immersion Indigenous Language Programming		
School	Goal	Explanation on status of goal
EJHS	n/a JHS does not have core or immersion ILE programs	
MHS	Our students receive ILE Core language instruction three times per week in class, but we try to incorporate language throughout the school outside of the language classes	
NJM	To ensure each class is being introduced to Indigenous languages on a regular basis	
RLN	Getting people saying a few words that will, eventually, ignite a passion for some students to invest in the language	
ESJF	Continue to offer the Dene Language course in 2021-2022	
EWMS	We currently do not have an Indigenous Language Program	

L. Engaging Community in Indigenous Language Programs

Engaging Community in Indigenous Language Programming is emphasized in the *Dene Kede* and *Inuuqatigiit* curricula and reminds educators that community involvement can take many forms. Schools should look for opportunities to engage with the community to promote, use and celebrate Indigenous languages. Students can be offered many activities where language speakers from the community may come into the school or the students may go out into the community. Some examples are participating in a culture camp with language use, attending a local government meeting, working with a health care nurse attending to Elders, or talking in the language while visiting at a store.

<p>Regional approach to engaging community in Indigenous Language Programs, including any specific information related to the COVID-19 pandemic. (required 2022)</p>	<p>Just as it takes a whole village to raise a child, so too does it take an entire community to revitalize a language. <i>Dene Kede</i> reminds teachers that community involvement can take many forms. Resource people from the community can come into the school or students can go out into the community. Students can be offered many different kinds of cultural experiences such as camping, attending a local government meeting, working with a healthcare nurse attending to Elders, or talking in the Dene language while working at a store for a short period.</p>

ILE Action Plan Goal for Engaging Community in Indigenous Language Programs		
School	Goal	Explanation on status of goal
EJHS	Invite Elders to CEPA program events	
MHS	Students will participate in one culture camp each year JK-Grade 2 Students participate in Jigging Grade 3-8 students participate in Traditional Games each week	
NJM	To provide a week long culture camp at the school where community members promote, use and celebrate Indigenous language and culture with all of our students	
RLN	Invite Elders from the community to speak in their traditional language	
ESJF	Grade 9 Winter Fish Camp Dene Hand Games	
EWMS	Invite Elders to Camp Akaitcho and cultural experience days to share language	

M. Employing a Whole School Approach to Language Use

Employing a Whole-School Approach to Language Use takes steps to bridge a gap created by colonization. Whole-School use of the language of the community sets educators along the pathway to reconciliation, which begins with the recognition of the past and an acknowledgement of the valuable gifts of language and culture.

The following tables detail the region’s approach to ensure that schools employ a Whole School Approach to Language Use, and includes regional and school level performance indicators and targets set for the upcoming school year, along with the achieved results, the explanation for any difference between targets and results, noted areas of strength and areas for development.

<p>Regional approach to ensure that all schools Employ a Whole School Approach to Language Use, including any specific information related to the COVID-19 pandemic.</p>	<p>Whole school approach to language use takes steps to bridge the gap created by colonization. Language is one gift that was deeply threatened during the residential school era of Canadian history, which aimed to destroy Indigenous languages and culture.</p> <p>All school staff have a role in helping to maintain and revitalize their Indigenous languages of the community, regardless of their own ability to speak it, by infusing Indigenous languages throughout the whole school, increasing students’ overall exposure. Elders play a critical role as language keepers, but in some cases, these champions are youth themselves, intent on learning and speaking a language that was taken from their parents and grand parents and willing to use innovative strategies to ensure that these languages are not lost forever.</p>

ILE Action Plan Goal for Whole School Approach to Language Use		
School	Goal	Explanation on status of goal
EJHS	Incorporation of the <i>Wilhidah/Thcho</i> language throughout the school	
MHS	To bring language and culture to the whole school, not just in ILC classes	
NJM	To provide students with Indigenous language experiences on a daily basis	
RLN	Label the school using traditional language to support students' understanding One sentence or word of the week. Staff can learn a specific saying or phrase in traditional language and teach it to their class Each class can select one of the Dene Laws to support Dene Law - School Art Project	
ESJF	Display and use of the <i>Wilhidah</i> language in the school	
EWMS	Increase the visibility and use of language throughout the school	

School Specific Performance Indicators	School	School Targets	Achieved Results	Explanation for difference (if applicable)
Initiatives in place to promote a Whole School Approach to Language Use.	EJHS	Incorporate <i>Wilhidah/Thcho</i> language into morning announcements (O Canada, word/expression of the week)

O. Resource Development for OLC and ILE

The Resource Development funding provides support for the continued development and implementation of the *Our Languages* curriculum (OLC) and *the Indigenous Language and Education (ILE) Handbook*.

This funding is to be used only for:

- a) Developing resources for the implementation of OLC and ILE Handbook in schools;
- b) Training and workshops for Indigenous Language Instruction (ILI) staff to further their professional development in OLC and ILE implementation; and
- c) Technology needs that support OLC and ILE implementation.

Note: Ensure a copy of any resources produced are submitted to ECE-ILES.
