Educating for Life!

Une éducation pour la vie!

Hòt'alòò Hoghàgoetòò

Life-long Learning

Real World Experience

Quality Education

In response to the NWT Integrated Junior Kindergarten/Kindergarten Curriculum, and current research on how children learn best, our Kindergarten program:

- Recognizes children are natural learners, each with unique strengths, talents and abilities
- Believes the best path to overall well-being and academic achievement is built on a foundation of play-based learning
- Engages children in play-based, hands-on, sensory and culturally appropriate learning
- Encourages children to explore with inquiry-based learning
- Provides learning environments that foster cognitive, language, social, emotional, physical and creative development
- Enables children to develop and express themselves in a range of literacies: words, numbers, images, sounds, movements and technologies
- Values on-going communication with parents with many opportunities for involvement inside and outside the classroom

Canadian Parents for French (CPF)

French Kindergarten programs are supported by Canadian Parents for French(CPF), a national volunteer-based organization of parents who value and promote French language learning opportunities.
