

Range Lake North School

Life-long Learning

Intensive & Post Intensive French

Intensive French (IF) is an approach in which French is taught with a concentrated approach. During the first half of the year, about 70% of instruction is in French and in the second half, about 25% is in French; the rest of the curriculum is taught in English. Mathematics instruction is taught in English through the entire year.

The Post-Intensive French (PIF) program for Grades 7 and 8 continues to help reinforce and develop French communication skills using the IF approach. In the PIF program for Grades 7 and 8, 20% - 25% of the day is taught in French.

Real World Experience

Range Lake North (RLN) is an inclusive school. Our staff works hard to ensure that all children feel welcome and successful. Students work at various levels and follow various programs. To meet the broad range of needs, special talents and abilities of all learners, RLN uses research-based best-practices and differentiated instruction.

RLN offers students the opportunity to experience and participate in numerous extra-curricular activities and clubs. Active participation helps foster constructive and collaborative environments between students and across grade levels.

Equipped with a virtual desktop and robotics lab, lego robotics lab, classroom chromebooks, print kit, Smart Boards and document cameras, RLN provides students with a world of opportunity. With so many technological experiences, students actively engage in their own learning. The development of these new, life-long skills, abilities and interests benefit students in the school and beyond the classroom.

Quality Education

RLN has a strong academic focus in areas of literacy and numeracy. Through a balanced literacy approach, students are engaged in diverse learning experiences to develop their reading, writing and oral language skills. Students and teachers engage in inquiry based learning to explore and learn about the world around them.

RLN emphasizes teaching students mathematical concepts with real world connections. Numeracy is developed with a student centered, problem solving approach. Students build upon their understandings and learn new strategies so that mathematical concepts become more meaningful to them.

Range Lake North has a lot to offer...

- Focus on literacy and numeracy
- Technology program with curriculum integration
- Grade 6 Intensive French
- Grade 7 & 8 Post-Intensive French
- Art programs for all students (Music, Band, Art and Fine Arts)
- Multi-sport activity program
- Indigenous language and culture-based education (ILC): camp experience and classroom integration at all levels
- School wide positive behaviour interventions and supports that define, teach and practice school-wide expectations.
- Student leadership opportunities
- Extra-curricular sports and clubs
- Junior Kindergarten and Kindergarten options
- Active Parent Advisory Committee (PAC)

Canadian Parents for French (CPF)

Range Lake North School is supported by Canadian Parents for French (CPF), a national volunteer-based organization of parents who value and promote French language learning opportunities.
