Life-long Learning

Students and teachers

Meaningful learning experiences for students engage the whole child as well as motivate and inspire a love of learning and the life-long pursuit of knowledge.

Ongoing professional development (PD) for educators is a vital link between current research and classroom practice.

Effective PD enhances program delivery and learning experiences for students.

Positive Behavioural Interventions & Support PBIS- a school-wide program built for success

NJM supports, celebrates and recognizes student success by identifying and acknowledging positive behaviour. Setting goals and working toward them as a school community sets the stage for success. Students can count on a strong network of support and positive direction as they focus on achieving school goals of being respectful, being responsible and building relationships.

Real World Experience

Literacy, academics and life!

NJM has a strong academic focus with an emphasis on literacy, numeracy and healthy lifestyles. Students participate and apply their knowledge to a variety of activities, projects and experiences. NJM is proud to continue an enhanced fine arts program which includes music, art, dance and drama.
