

École William McDonald Middle School

Life-long Learning

Meaningful learning experiences for students that engage the whole child and motivate a love of learning and the life-long pursuit of knowledge.

On-going professional development (PD) for educators is a vital link between current research and classroom practice. Effective PD enhances program delivery and learning experiences for students.

Throughout the year, students of ÉWMMS get to experience different Exploratory choices which include Culinary Arts, Industrial Arts, Outdoor Education, Technology & Fine Arts.

Real World Experience

The excellent École William Macdonald Middle School (ÉWMMS) athletics, exploratory and music programs create a variety of education paths for students to explore.

Students can match their interests, talents and passions to any number of extra-curricular teams, groups and activities.

English and French language programs provide students with the opportunity to become bilingual:

- French Immersion (gr 6-8)
- English with Core French (gr 6-8)
- Intensive French (gr 6)
- Post-Intensive French (gr 7-8)

The ÉWMMS learning environment recognizes and understands the specific needs of students during the adolescent years. As the NWT's only dedicated middle school, this unique setting prepares students for a smooth transition from elementary to high school.

Quality Education

Students participate in a wide variety of learning experiences, activities, and projects outside of the regular classroom, including student leadership and community service activities, visits with local senior citizens, sporting events, recycling and much more.

In addition to these exciting programs, ÉWMMS also offers a year-round music/band program in our fully-equipped music room.

Innovative teaching practices and real-life connections extend student learning far beyond the classroom!
